REQUEST FOR PROPOSAL FOR:
CS 47082 JN 48762C**

QUESTION 1 Traffic Signal Design has been included as a Primary Prequalification Classification for permanent and temporary traffic signal work at four locations. Is it possible to have this classification listed as a secondary requirement?

ANSWER 1: The Prime Consultant must have all the prequalification categories that are listed as Primary Prequalification Classifications.

QUESTON 2: The Subsurface Utility Engineering classification and work are required for this project as directed by the University Region. We also understand that the scope of work will be further defined after selection. Has been a rough scope of work been developed that would indicate the magnitude of the SUE activities that will be required.

To be completed by Project Managers for posting on the RFP website

ANSWER 2: The SUE Consultant will designate/locate specific utilities in specific areas that are identified as potential conflicts by the MDOT design engineers. The magnitude of these areas will be refined prior to submission of the priced proposal. It is not the intent to designate/locate all utilities for the entire length of the project.

QUESTION 3: Is MDOT planning to prepare the permanent non-freeway signing plans? If not, should it be added to the scope along with the Non-Freeway Signing Prequal category?

ANSWER 3: MDOT will prepare the permanent non-freeway signing plans
